

There is a Penrite engine oil and lubricant formulated for every type of automotive application.

Our recommendation for your enquiry is on the basis that it is to be used under the typical Australian motoring and climatic conditions. For your engine oil, use the next heaviest grade listed if operating under severe conditions or if oil consumption is an issue.

Recommendation for: MAZDA RX-7, 1.3L Twin Turbo (1992-1999)

Engine oil	HPR 10
Engine capacity	3.4
Manual transmission oil	TRANSAXLE 75
Manual transmission capacity	2.5
Auto transmission oil	
Auto transmission capacity	
Transfer case oil	
Transfer case capacity	
Front differential oil	
Front differential capacity	
Rear differential oil	(see note I)(see note E3)
Rear differential capacity	1.3
power steering oil	ATF TOP UP FLUID
notes	I
	E3 May also use Transaxle 75 !
